

HELPING OTHERS REACH THEIR POTENTIAL

Sponsorship Form

Since 1996 Growth Development Services (GDS), a community-based, non-profit organization, has been serving youth who face burdens regarding mental health, family instability, and violence in their communities.

Our programs are designed to provide New York City's at-risk youth access to summer and after-school programs. GDS has proven success in improving learning habits, emotional and physical health, fostering interpersonal and leadership skills, and promoting confidence, goal setting, and community service.

GDS has improved the odds for more than 2,400 underserved individuals and their families. Your contribution will help us serve more youth and seniors as well as enhance the quality of our programs and services.
